

Business Results for the Second Quarter of Fiscal Year Ending December 31, 2010

OUTSOURCING Inc.
(JASDAQ 2427)
August 2010

- P 3 Consolidated Financial Summary for Q2 FY12/10
- P10 H2 Group Strategy to Achieve FY12/10
- P16 Group Short- and Mid-Term Management Plan
- P30 Earnings Revision and Forecast for FY12/10
- P35 Reference

Consolidated Financial Summary for Q2 FY12/10

Consolidated Financial Highlights for Q2 FY12/10

- Driven primarily by the transport equipment and electronics related industries, two of OUTSOURCING Group's core clients, the volume of orders from the start of the term surged beyond expectations
 - ▣ Net sales increased by 66.0% year-on-year
- Because the order volume surge occurred after OSI had gone through a major restructuring of management in response to the previous economic crisis, the Group experienced a temporary hike in costs, including those associated with sales and project site management personnel, contract workers, and for worker dormitories.
 - ▣ One-time, frontloaded expense of approx. ¥200 million posted
- Earnings took a major spike upward, mainly for the Group's core production
 - ▣ Operating income: Up ¥630 million y/y from a loss of ¥374 million in Q2 FY12/09

The frontloaded investment to bolster OSI's ability to cope with the order volume surge was completed in Q2. While H1 sales rose as a result of the order volume surge, high order volume is expected to carry over into the H2 and boost earnings.

Consolidated Financial Summary for Q2 FY12/10

| (¥ Million) | FY12/09 Q2 (accum.) | | FY12/10 Q2 (accum.) | | Change Year-on-Year | | vs. Forecast dated Feb.10,2010 | |

| Cash and cash equivalents, end of term | 1,052 | 1,386 | 333 |

- Increase in trade receivables due to net sales increase

- Increase in unpaid salary and other costs in response to business volume expansion

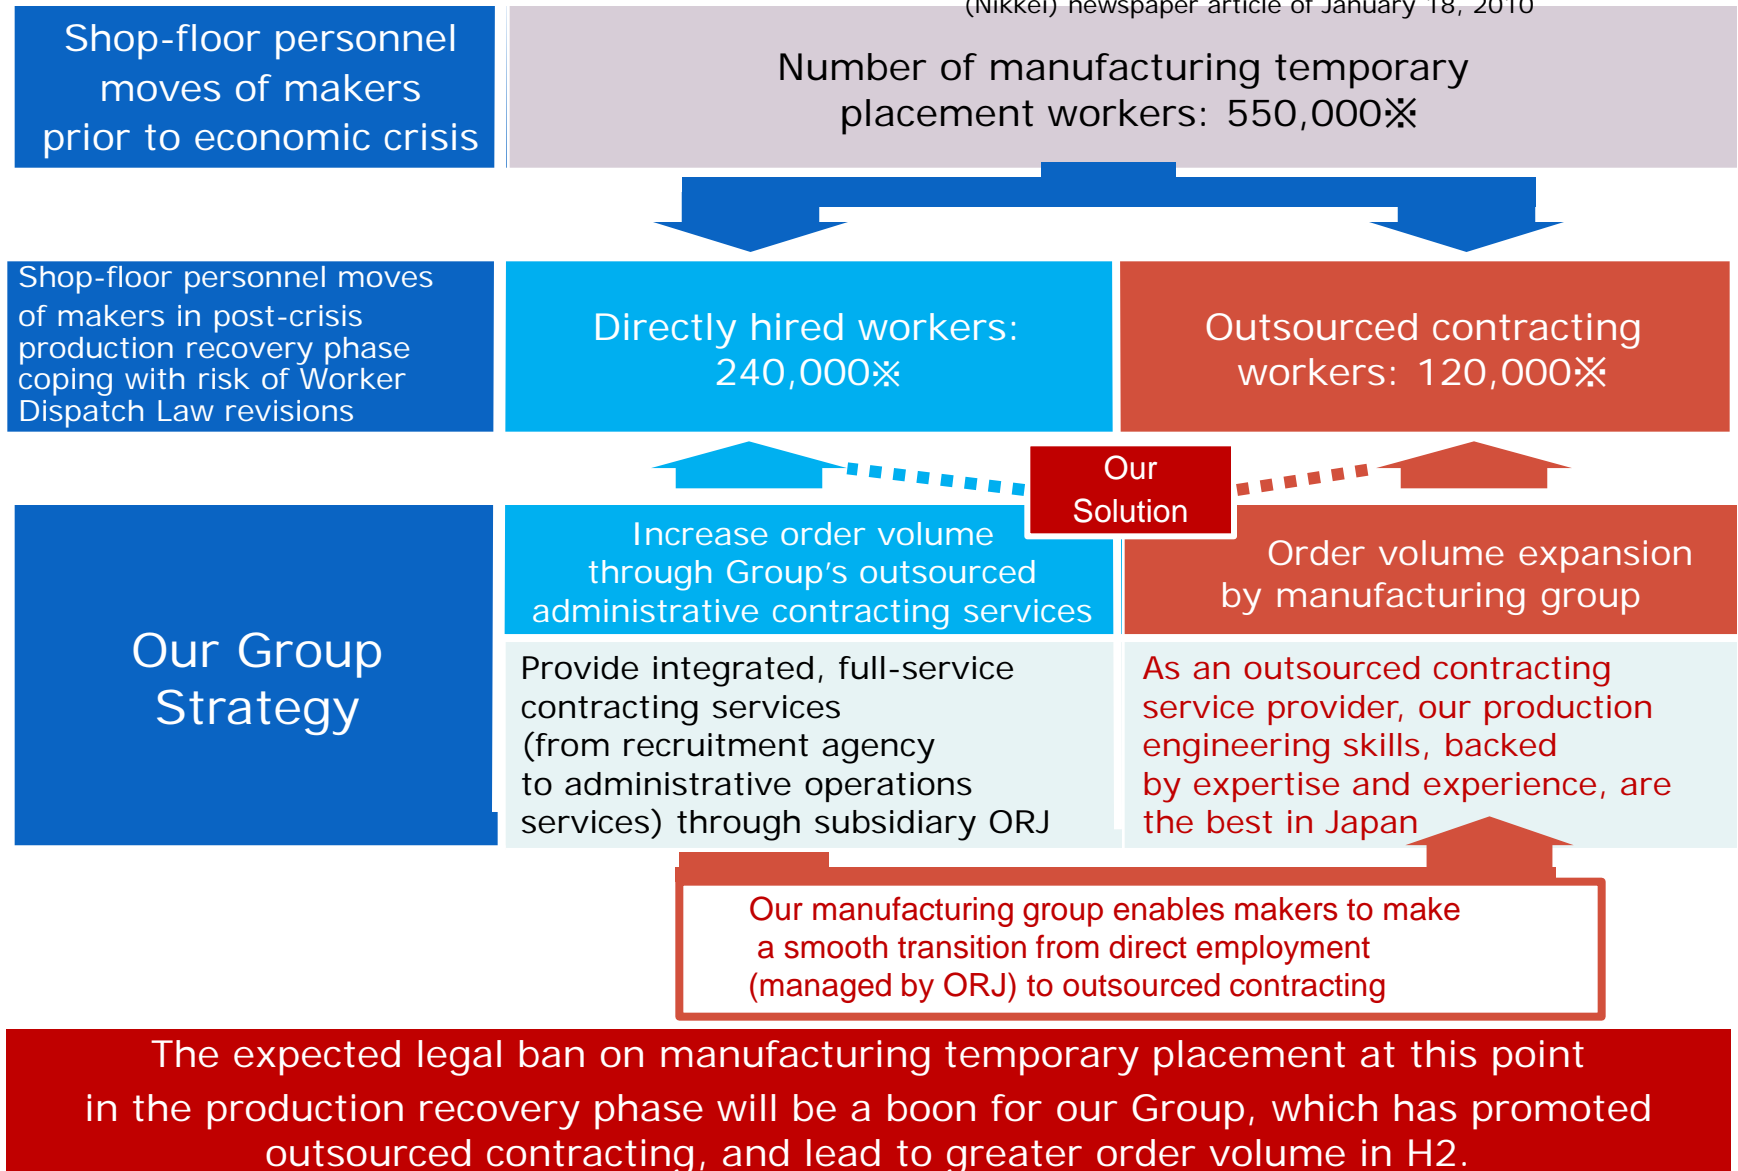

- Decrease due to repayment of bank loans

H2 Group Strategy to Achieve FY12/10 Budget

OUTSOURCING Group's H2 Order Volume Strategy

※ Prepared by OUTSOURCING Inc. based on Nihon Keizai Shimbun (Nikkei) newspaper article of January 18, 2010

Projected H2 Orders for Outsourced Administrative Contracting Services

● Projected H2 Orders

~Recruitment agency to outsourced administrative operations service range through H2~

| Company | Recruitment agency to outsourced administrative operations service range | Note |
|-------------------|--|---|
| Corporate Group A | 600 workers | Orders from all 5 transport equipment manufacturing group companies |
| Company B | 500 workers | Orders from 5 factories nationwide |
| Company C | 400 workers | Orders from 13 factories nationwide |

Projected H2 Orders for Production Outsourcing Services

- Actual Q2 results
 - Fewer short-term workers in food industry means **fewer contract workers**
 - **Q2 net sales rose by 4.4% y/y**, driven by increases in fulltime workers in the transport equipment and other industries
- Projected H2 Orders
 - Outsourced contracting program starts at Company A's Sakai Factory, which makes G10 LCD panels
At the end of March: some 100 workers ⇒ End of June: some 140 workers (achieved)
⇒ End of October: some 300 workers (projected)
 - ORJ manages seasonal workers hired directly by makers, whose production processes are then converted by outsourced contracting by our manufacturing group
Of Company B's seasonal workers managed by ORJ at 7 factories nationwide, 120 workers in 2 factories will be systematically rehired as contract worker status from late July and conversion to outsourced contracting begun.
By the end of this term, all 280 seasonal workers at the 7 factories will be rehired as our contract workers.

By the end of December 2012, 5,000 workers—or some 80% of the 6,700 workers projected to managed under outsourced administrative service contracts—will be converted to outsourced contracting.

Summary of FY12/10 Earnings Forecast by Segment

| (Unit: ¥ Million) | | FY12/10 | | Future Outlook | |

| Total | Net Sales | 6,091 | 6,227 | 6,685 | 7,029 |
| | Operating Income | 191 | 334 | 495 | 586 |

Projected Operating Income

Jun.

¥182 million (actual)

Jul.

¥200 million (forecast)

Aug.

Due to the decrease of operating days, the operating income will decrease to less than Jul.

After Sep.

As, in addition to the production recovery, increased production toward the end of year and early next year is added, higher level of operating income than July is expected.

Production Outsourcing Business: Transition and Direction in Net Sales by Industry

| Others | 435 | 467 | 527 | 777 | 1,100 | 1,167 | |

- Integrated contract framework includes design, development and volume production for automobiles at Company A

April: 40 workers in design department; 70 workers in volume production unit
(part of production process converted to outsourced contracting service)

Order received to manage volume production process of lithium ion batteries
to be installed on new automobiles from August

End of fiscal 2010: 160-worker system (order accepted)

End of fiscal 2011: 500-worker system (estimate based on production plan)
- OSI places 400 contract workers at an air conditioner plant for Company B from April to July every year

Due to orders for industrial air conditioners, Company B shifted to outsourced contracting and a full-year, 200-worker system was adopted.

Company B is expected to switch to outsourced contracting to produce its water heater and pre-fabricated kitchen units next year

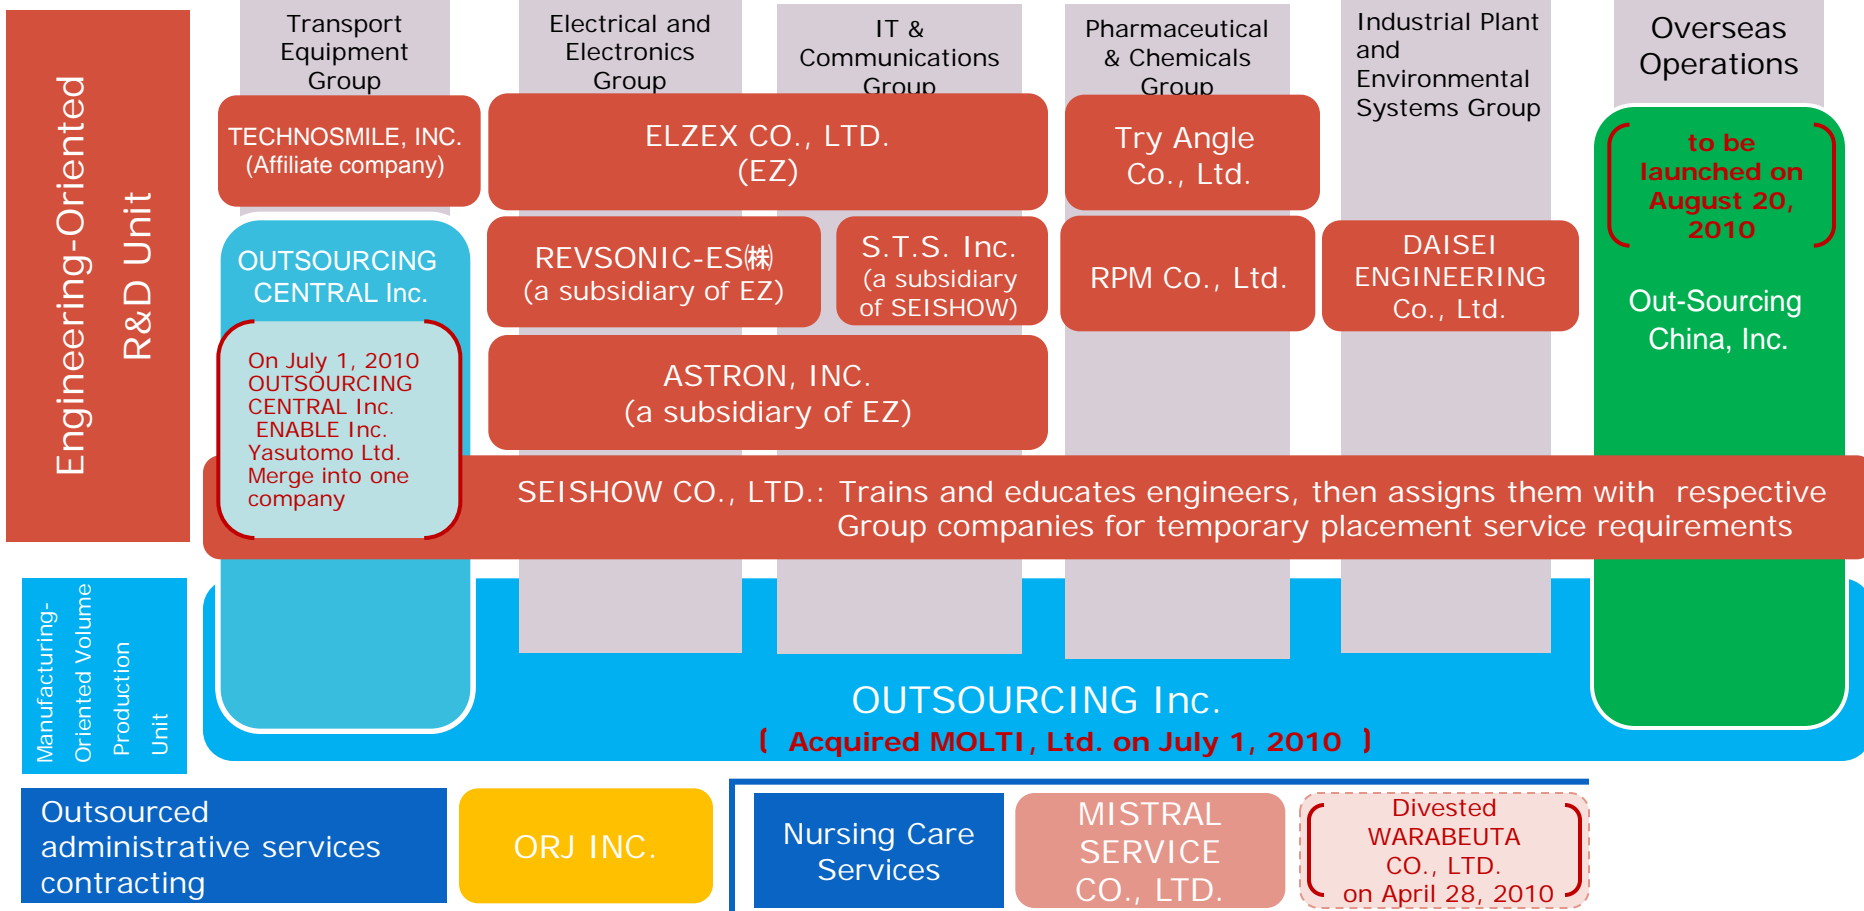

OUTSOURCING Group Short- and Mid-Term Management Plan

OUTSOURCING Group's Upgraded Integrated Contract Framework (as of July 31, 2010)

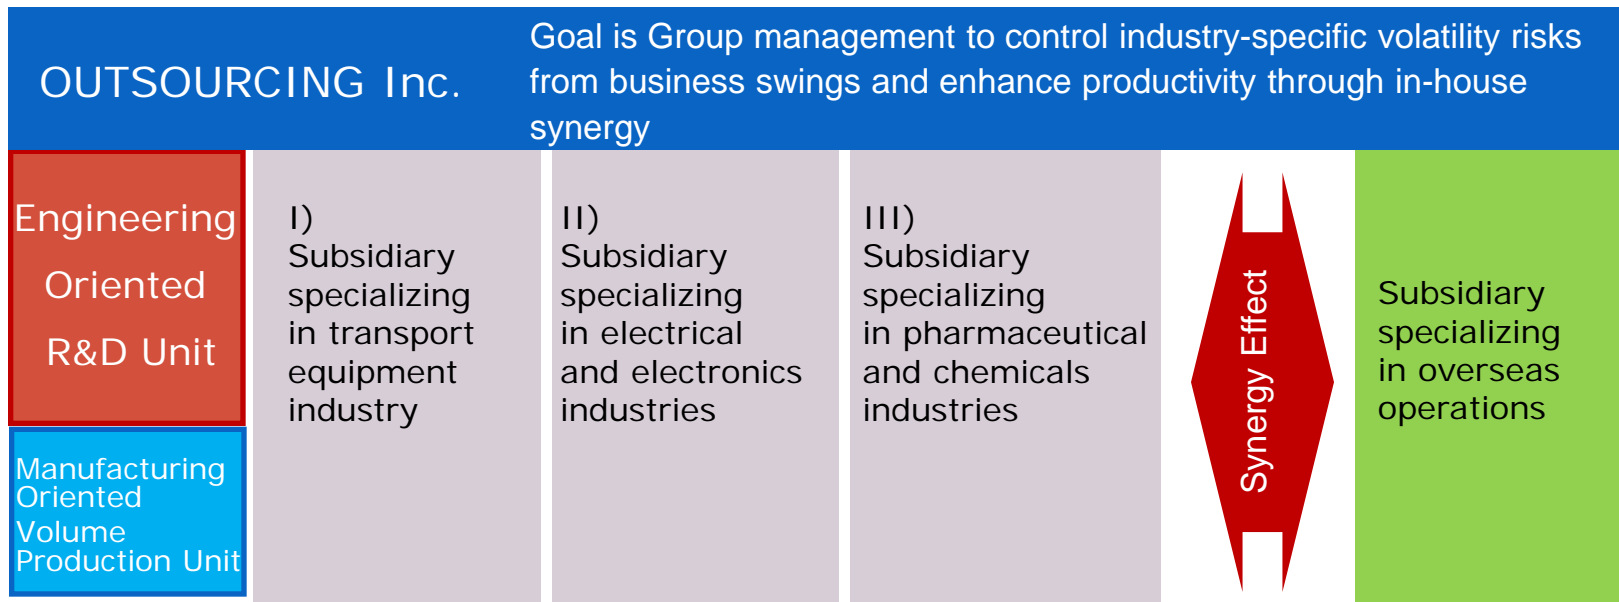

- Actively acquired business resources required to provide advanced R&D contracting services through strategically designed M&A program in the previous year
- Launched an infrastructure capable of managing upstream-to-downstream contracting services starting with peripheral R&D and extends to volume production, in response to manufacturers' needs

Production Outsourcing Services

Business Upgrades to OUTSOURCING Group

- Industry-specific subsidiaries offer integrated contracting services
 - Transport Equipment
 - Electrical & Electronics
 - Pharmaceutical & Chemicals
 - Overseas Operations
-
- Business Upgrades to Restructured OUTSOURCING Group

Status of Engineer Placement System as Precondition to Integrated Contracting Services and Orders Received

- Japan's engineer placement market

- Manufacturer reduced engineer at maximum due to the significant reduction of R&D budget under economic recession. As a result, the shortage of engineer became obvious at recovery phase in FY12/10.

Engineering applicants seeking to transfer from our competitors to OUTSOURCING

Some 200 workers

Because we successfully rode out the economic crisis, the number of skilled engineers seeking to transfer to our Group is on the rise

Meeting orders from makers for skilled engineers has become easier, as we can readily acquire engineering talent without recruiting costs.

- H2 Status of Orders for Engineer Placement

| Projected Orders | Projected Numbers | Projected Starting Date |
|---|-------------------|---|
| Company A: Automotive design and development | 50 workers | Order confirmed in July Subsidiary SEISHOW CO., LTD. receives priority placement order under Company A's purchase ceiling regulation |
| Company B: Design, development and manufacture of SPE | 20 workers | Order confirmed in July |
| Company C: Maintenance of LCD fabrication equipment | 30 workers | Expected to start in September Contract integrated with OUTSOURCING's engineering and volume production units |
| Company D: FE operation for SPE | 10 workers | Expected to start in September To start with installation and preparation operations overseas |
| Company E: FE operation of SPE | 20 workers | Expected to start in October |

Integrated Contracting Services by Industry-Specific Subsidiary I : Transport Equipment Group

● Operating Environment

(Unit in thousands) Domestic Automobile Production Trend (on a fiscal year basis)

Source: Japan Automobile Manufacturers Association, Inc.

● Domestic Automobile Production Trend

Short Term

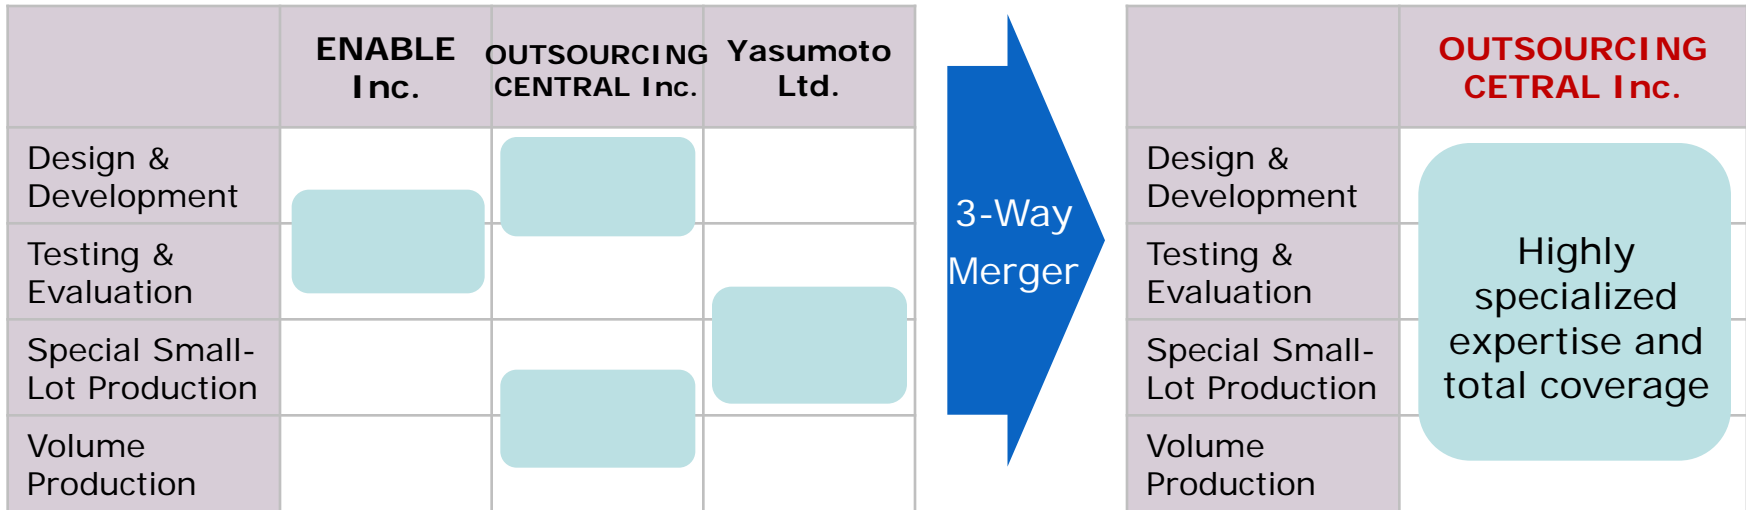

With the termination of the government's tax cut on cars, domestic production is expected to weaken in October-December 2010. However, production should regain stability after 2011 due to such factors as the rise in consumer purchasing power in emerging countries and new design changes for domestic models.

Mid-Term

Production outsourcing providers who survive the ongoing industry shakeout will gain market share as manufacturers increasingly turn to production outsourcing

Integrated Contracting Services by Industry-Specific Subsidiary I : Transport Equipment Group

- Highly specialized business infrastructure created through the merger of three companies

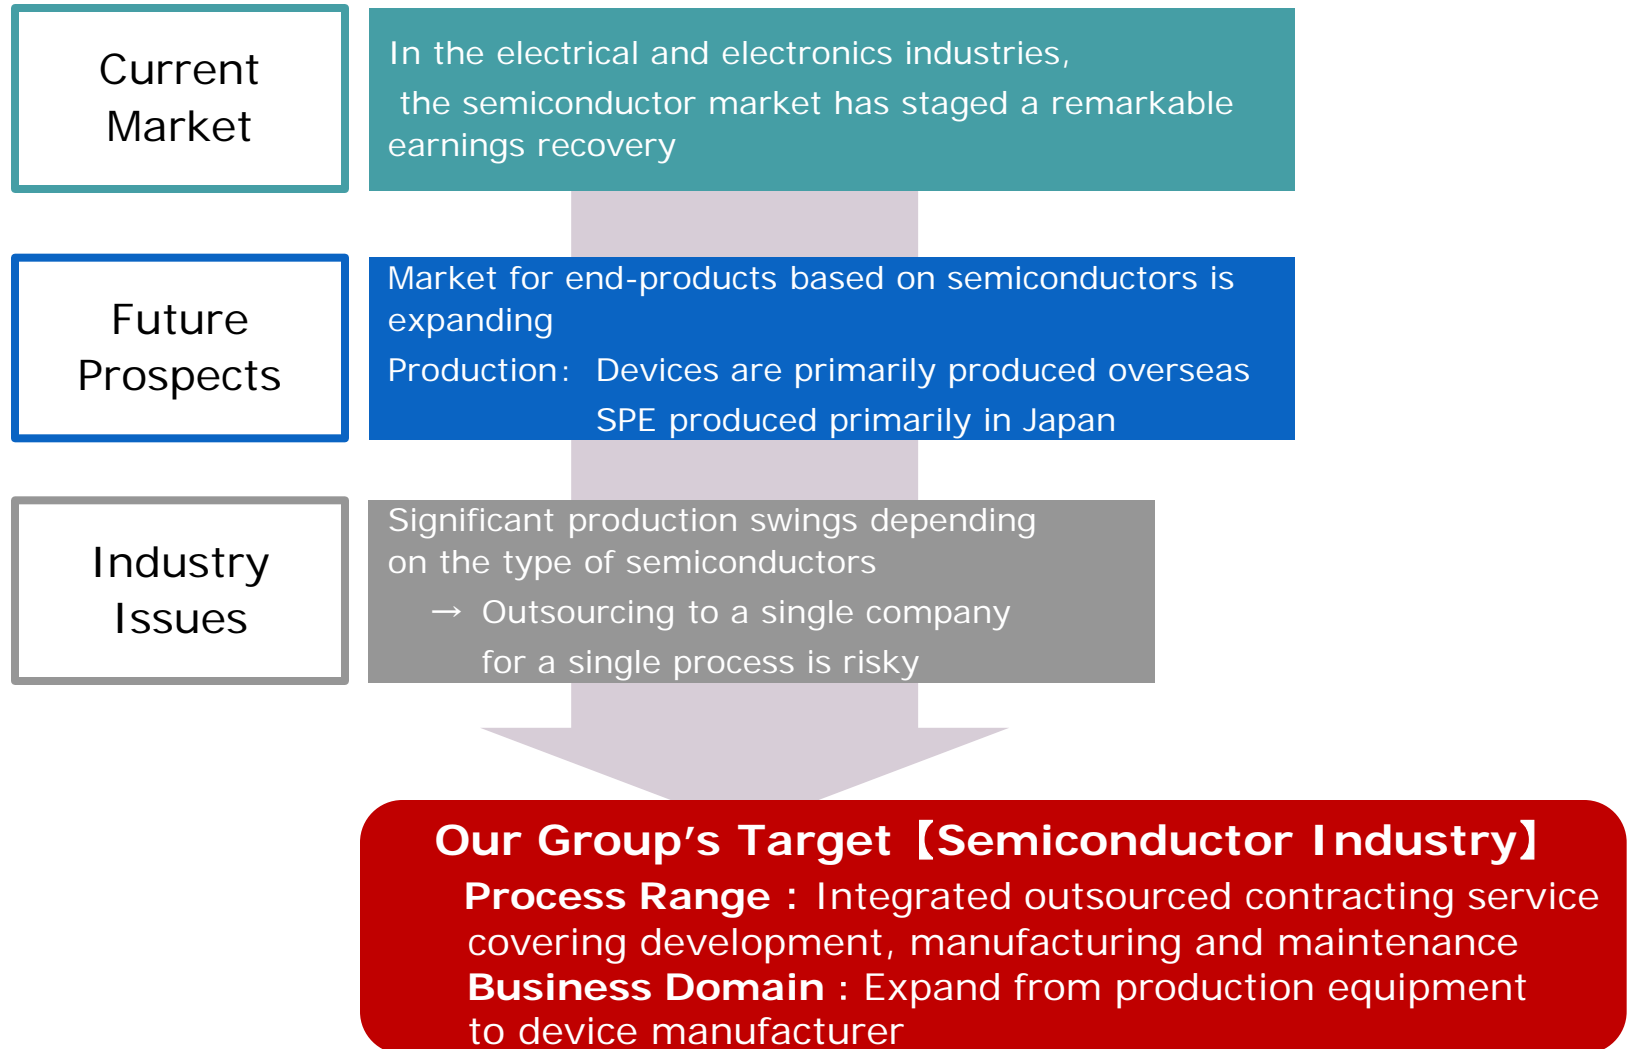

- 3-way merger makes for advanced business infrastructure operations from 2H
 - Commenced CNG trial service
 - Entered into new transaction with major automaker A
 - Began hydrogen-fueled engine test program
 - Accepted foreign trainees at OUTSOURCING CENTRAL's domestic outsourced contracting sites
 - Reallocated to Asian-based factories of our clients' makers as officer candidate
 - These initiatives have gotten high marks and have led to an agreement with major automaker B

Our full-service contracting framework, which ranges from specialized services to volume production, has not only expanded business opportunities for increased market share, it has clearly differentiated us from the competition

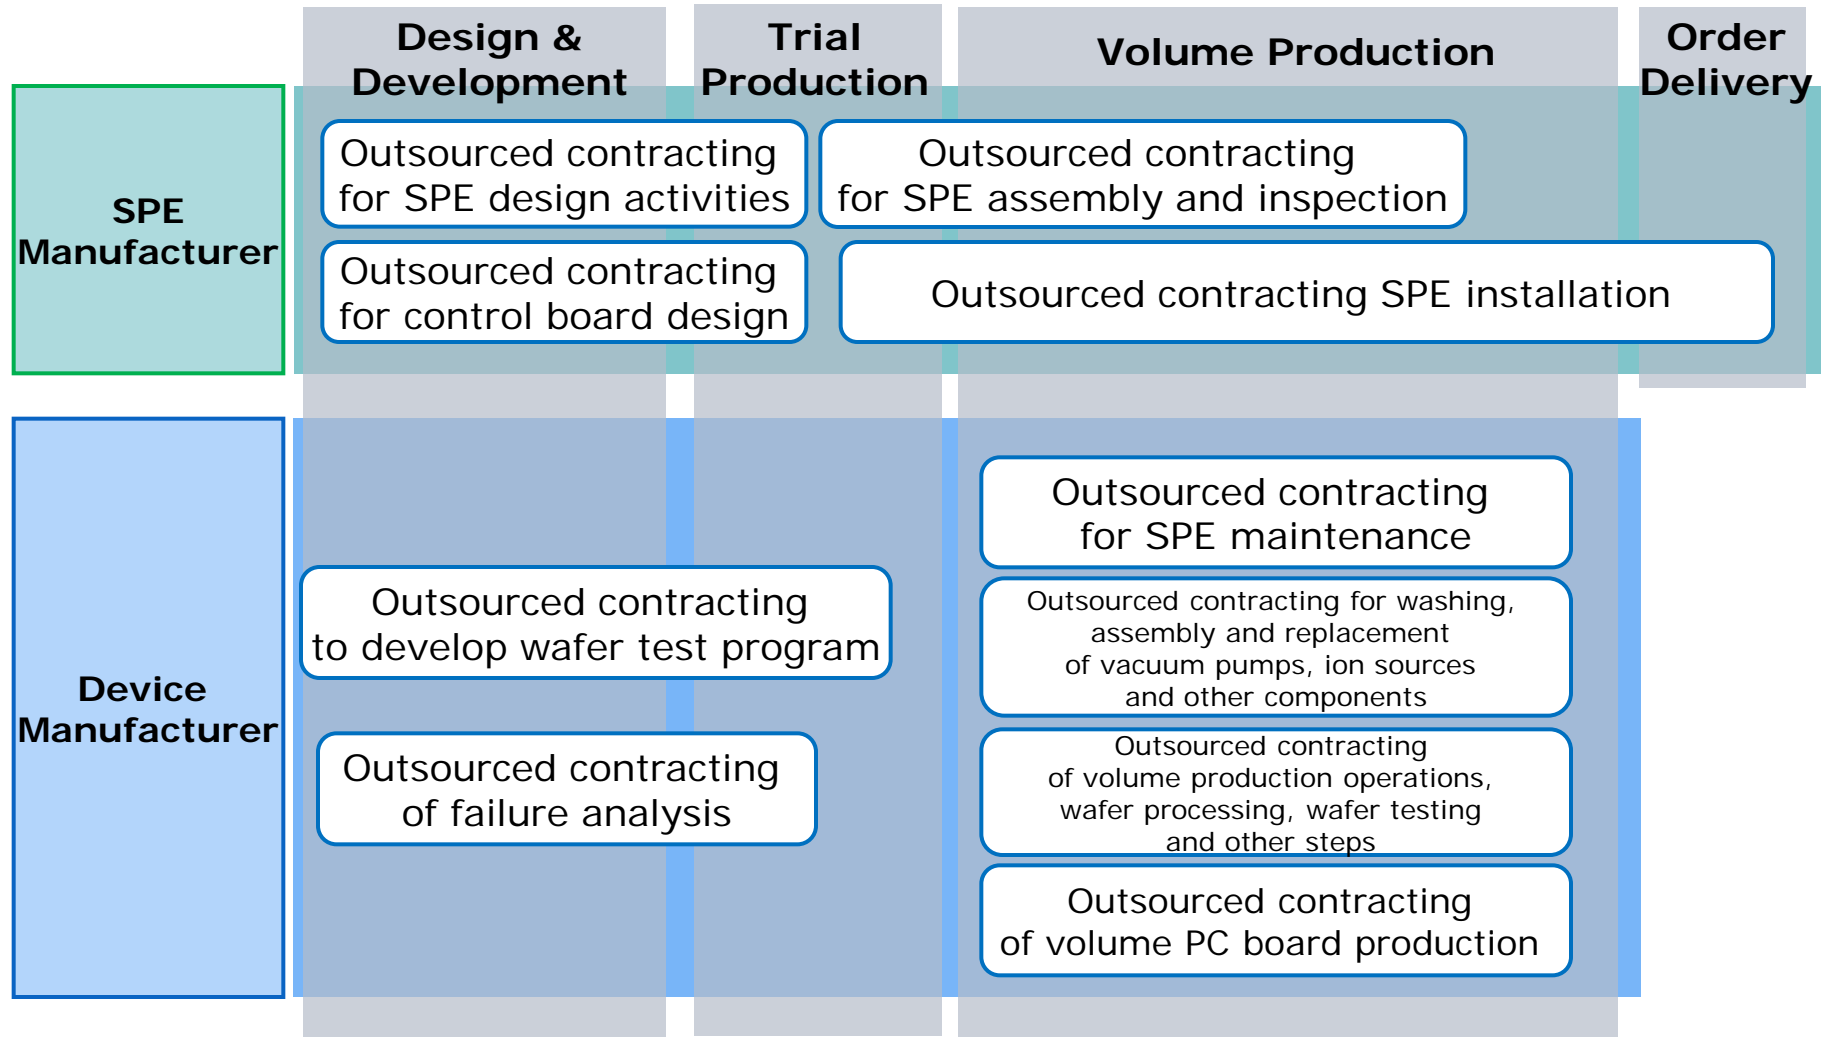

Integrated Contracting Services by Industry-Specific Subsidiary II : Electrical & Electronics Group

- Operating Environment and Business Strategy

Integrated Contracting Services by Industry-Specific Subsidiary II : Electrical & Electronics Group

- Business Domain

Integrated Contracting Services by Industry-Specific Subsidiary II : Electrical & Electronics Group

- Business Domain

Expansion
& Growth

- ❑ Establish general administration department
 - Hire general manager of a major SPE maker's manufacturing unit to supervise operations
- ❑ Coordinate with clients
- ❑ Coordinate with partners
- ❑ Arrange in-house coordination

- ❑ Commence transaction with client makers (starting manufacturing operations)
- ❑ Initiate alliance activities with partner-companies
- ❑ Initiate Group activities
- ❑ Initiate promotion of progress, management

- ❑ Expand client base
- ❑ Expand business parameters of orders (Entry into product development and trial production phases)
- ❑ Group cooperation to set up integrated outsourced contracting framework

Preparation Phase
H1 of FY12/10

Startup Phase
H2 of FY12/10

Business Expansion Phase
After FY12/11

Integrated Contracting Services by Industry-Specific SubsidiaryⅢ: Pharmaceutical & Chemicals Group

- Market Trends and H2 Orders of Subsidiary Try Angle Co., Ltd.
 - With patents on blockbuster medicines held by pharmaceutical companies expiring (the so-called “2010 Issue”), low molecular drugs have become heavily commoditized. Meanwhile, bioengineered products such as antibody drugs and other solutions gain momentum.

- While manufacturers are seeking to develop new business opportunities, they lack the technology, human resources and facilities. We offer a new service in which exploratory research is outsourced to us. We, in turn, collaborate with universities and other research institutes to develop solutions.

Offering integrated outsourced contracting service through partnership with university-founded pharmaceutical venture company

June: Dispatched clinical technician

July: Paid introduction of manager to vaccine production plant as permanent hire

August: Secured placement order for 40 production engineers at vaccine production plant (expecting order for 20 additional engineers)

2011: Potential order from new plant in Shizuoka prefecture

Integrated Contracting Services by Industry-Specific SubsidiaryⅢ: Pharmaceutical & Chemicals Group

- Market Trends and H2 Orders of Subsidiary RPM Co., Ltd.
 - As more major pharmaceutical companies enter the generic drug market and the recognition of generic products enhanced, competition in this area is intensifying.

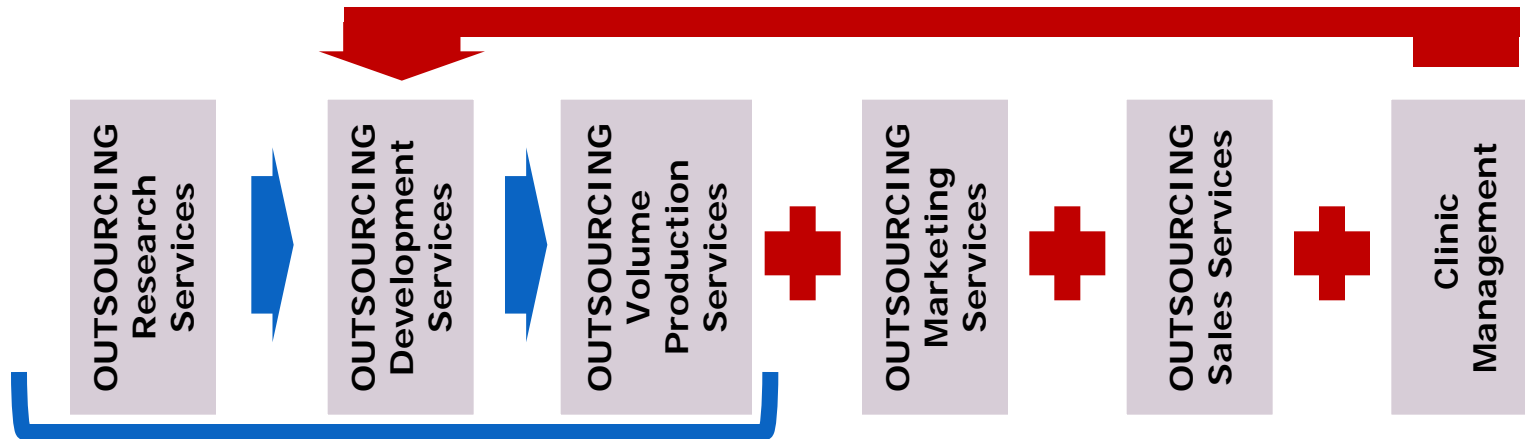

- Meanwhile, the shortage of medical professionals and facilities to take advantage of these generic products is a growing concern.

Our contract with a clinical trial site, which can develop new applications for generic medicines, will begin in September

- ◆ We have concluded outsourced monitoring service contracts with several generic drug manufacturers.
- ◆ Demand for our services is growing among our existing drug maker clients as well
- ◆ Due to increasing demand for our monitoring service, we are now working to secure integrated service contracts for drug development projects, which include data management, statistics analyses and product quality control.

Integrated Contracting Services by Industry-Specific Subsidiary III: Pharmaceutical & Chemicals Group

- Our Medico-Chemical Strategy for 2010-2012

In the pharmaceutical and chemicals fields, an integrated service contract, in which research leads to development, which then leads to volume production, can be extended for more than ten years.

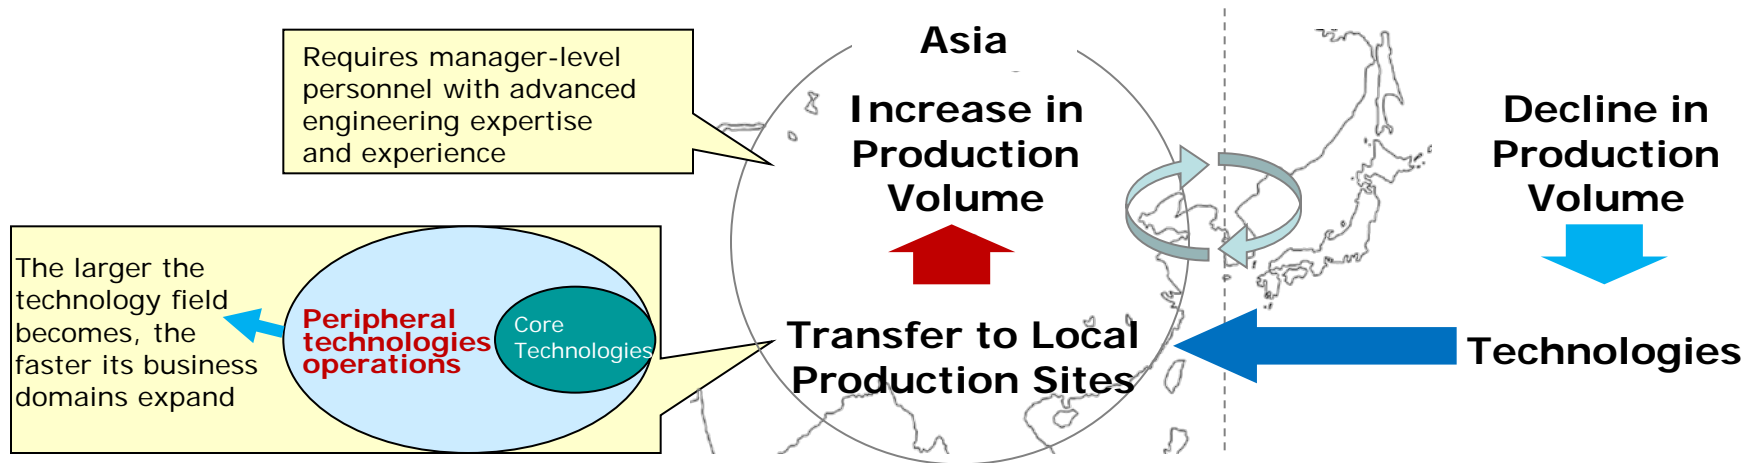

By collaborating with a manufacturer to develop marketing and sales strategies, we can sustain our partnership with clients on a long-term basis. Moreover, by carrying out development services for pharmaceutical companies at our clinical trial center, that can ultimately lead to outsourced contracting for volume production—creating an ever-expanding dynamic of business opportunities.

Overseas Operations

- Established Overseas Business Department in December 2009
 - Recruited personnel experienced in launching Japanese subsidiaries in several foreign countries, including China
- Launch of Shanghai-Based Out-Sourcing China, Inc. Expected on August 20, 2010
 - Basic Strategy
 - ◆ Provide local enterprises with quality engineering solutions through collaborative effort of our Group's industry-specific subsidiaries
 - ◆ By winning engineering contracts, establish an integrated service contract framework that spans R&D to volume production for specific technology fields
 - ◆ Provide Japanese expertise in R&D and production to local enterprises in need of such know-how
 - H2 Strategies: Provide Highly Specialized Outsourced Services Based on Our Group's Expertise
 - ◆ Win engineering training and consultation service contracts supervised by our Group's engineering professionals
 - ◆ Enlist local enterprises to adopt a training system for candidates fast-tracked for management positions developed by our Group
 - ◆ Win technology-related service contracts proposed as a result of a collaborative effort by our Group's industry-specific subsidiaries
 - Win engineering service contracts from local enterprises working in the transport equipment field
 - Win engineering service contracts from local enterprises working in the electrical and electronics fields
 - Win engineering service contracts from local enterprises working in the pharmaceutical and chemicals fields

Overseas Operations

- 2010-2012 Asia Business Plan

- ① Strategy addressing needs of Japanese companies ready to transfer production overseas
Need for supervisors with production management skills is growing locally
Provide a training system for engineers based on Techno Smile expertise and our marketing know-how
- ② Strategy addressing needs of Japanese companies ready to transfer R&D functions overseas
Need for a core engineering corps that can carry out R&D is growing locally
Set up a placement service for foreign engineers using our Group's experience in engineer placement
- ③ Strategy addressing needs of Japanese companies targeting consumer markets in Asia
Set up local subsidiaries and capitalize on the expanding need for outsourced contracting services

By implementing the three strategies, it will be possible to provide the full range of outsourced contracting services, from R&D to production

Summary of Dividend Forecast Revision for FY12/10

| (¥) | Dividend per Share | | | | Total |
|--|--------------------|-------------|----|---------------|---------------|
| | Q1 | Q2 | Q3 | Term End | |
| Previous Forecast (as of Feb. 10, 2010) | - | 0.00 | - | 672.00 | 672.00 |
| Revised Forecast (as of Jul. 14, 2010) | - | 0.00 | - | 721.00 | 721.00 |
| FY12/10 Actual | - | 0.00 | - | | |
| FY12/09 Actual | - | 0.00 | - | 644.00 | 644.00 |

- Based on our Group's dividend policy mandating a payout ratio of 10%, we revised upward to ¥721 per share our dividend forecast for this fiscal year's end. This is in response to the upward revision of net profit for FY12/10.

- Our objective is to achieve an average annual growth rate of ordinary income of 50% or more over the next three years. We set this target as a result of having acquired through M&A and other means the necessary business resources to fully meet the complex new needs of manufacturers, which are in the process of recovering from the financial crisis of 2008.
