The OUTSOURCING Group aims to become a game changer in the HR business amid changing legislations and shifting KPIs. Through platform creation, we will transform our business structure in order to expand our fee-based business

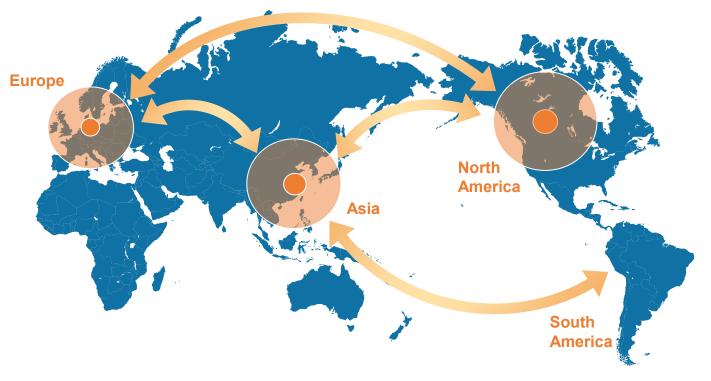

* game changer = a person or thing that causes a major transformation or changes the status quo

New Initiatives under VISION 2024

Here, we introduce the Group's specific initiatives to promote HR mobilization from a global perspective, with the vision of "WORKING" Beyond Borders

The world has been entering an era where working people move dynamically across national borders. Corporate needs for workers are scattered across regions, countries and territories. Furthermore, the nature of the labor supply-demand gap differs between each. We are working to further strengthen our management structure, promote cooperation between group companies, and accelerate collaboration with local partners to capture the dispersed needs in a timely manner

Build a global HR mobilization network that adapts to changes in the economy and the operating environment, centered on the three major regions that serve as HR mobilization "hubs"

Leverage our Group's scale of business, with our 86,000* employees (approx.) at 199* companies in 34 countries and regions around the world

* As of December 2019
